

ECHOES IN NATURE

HAMPSHIRE COUNTY

Echoes in Nature explores the landscapes of Hampshire County through poetry and music.

The project focuses on six distinct natural locations across six towns, with the goal of creating a series of performances that inspire environmental stewardship and foster inclusive, welcoming spaces.

Through intentional hikes and creative sessions, Jess and Kim will craft original poems and songs that reflect the beauty and significance of these landscapes, connecting their art to the community and the environment.

ENGAGEMENT

OUR IMPACT, OUR COMMUNITY

Echoes in Nature presents an opportunity to engage our community around these four goals:

- *Outreach to Historically Underrepresented Populations*
- *Environmental Stewardship*
- *Community Building*
- *Natural Resource Awareness*

ABOUT US

Kim Hoff is a naturalist, essayist, and poet whose work explores the intersection of nature, community, and identity.

Jess Martin is a queer singer-songwriter blending punk blues with folk. Their evocative lyrics explore identity, belonging, and nature.
